ABOUT US

Our Mission

At Istinye University, our mission is to provide innovative and sustainable education within a student-centered environment. We collaborate closely with industry partners to conduct advanced technology research, generate new knowledge and technologies, and develop solutions that address both local and global challenges, ultimately contributing to societal development.

Our Vision

Istinye University aims to become one of the world's leading institutions in the field of artificial intelligence, striving for excellence in education, research, innovation, and technology development.

Our Values

Entrepreneurship
Innovation
Competitiveness
Leadership
Team spirit
Respect for ethical values
Justice
Passion
Self-confidence
Social responsibility
A sense of belonging and dedication

The vision of Istinye University is to become a global leader in artificial intelligence, committed to excellence in education, research, innovation and technology development.

APPLICATION AND RESEARCH CENTERS

• International Sustainability Application and Research Center (IRCOS)

In our pursuit of sustainability, our foremost priority is to position ourselves as a university that actively engages in research and educational activities aimed at fostering a comprehensive understanding of governance, economy, culture, and environmental and social responsibilities.

• Continuing Education Center Training

Aligned with our vision, ISUSEM offers training programs that empower participants to enhance their professional and personal development.

• Distance Education Center

Istinye University provides off-campus learning opportunities, accommodating students who are separated from educational resources by time and distance. The distance education model is increasingly adopted by universities and institutes worldwide, with new technologies making it a more viable option for both institutions and learners.

LIBRARY

The Vadi Campus Library operates from 09:00 to 20:00 on weekdays, while the Topkapı Campus Library is open from 08:00 to 17:30 on weekdays. The Liv Hospital Bahçeşehir Faculty of Medicine Library and the Medicalpark Gaziosmanpaşa Faculty of Medicine Library both operate from 08:30 to 17:30 on weekdays. Additionally, access to the library is available 24/7 via the university library website, and off-campus databases can be accessed at this link.

Our library also offers open access, which enables scientific publications to be easily searchable on the web. These publications are available in digital format under an open license, allowing everyone to read, download, copy, and distribute the material in accordance with copyright law.

PREPARATION FOR BUSINESS LIFE AFTER GRADUATION

Career Center Events

Training sessions, seminars, interviews, and other events are organized for Istinye University students and graduates. These initiatives aim to raise awareness about career development processes, assist in decision-making and planning, and help individuals manage their careers effectively in line with their interests, talents, skills, and values, as well as navigate uncertainty, indecision, change, and transitions.

COURSES

Sustainability courses at Istinye University equip students with both theoretical and practical knowledge, preparing them to excel in the realms of environmental, economic, and social sustainability. Through these courses, students develop competencies in creating eco-friendly practices, utilizing natural resources efficiently, and addressing global challenges, such as climate change. Furthermore, they cultivate an understanding of social sustainability and social responsibility, enabling them to contribute to the sustainable development of communities. These courses not only raise awareness about environmental issues but also endow students with the skills to address these challenges and devise strategies aligned with sustainability principles. Consequently, students emerge as more conscious, responsible, and solution-oriented individuals.

Social responsibility courses similarly enhance students' understanding of social issues, empowering them to devise solutions that foster positive societal change. These courses provide in-depth knowledge of concepts such as ethical values, justice, equality, and social responsibility. Students acquire practical skills in designing and managing social responsibility projects, equipping them to develop initiatives beneficial to society. They also learn to comprehend social responsibility practices within both the business sector and civil society, enabling them to integrate these practices into their professional endeavors. As a result, social responsibility courses not only encourage students to generate social benefits but also help them cultivate vital skills, such as leadership, teamwork, and communication. Ultimately, these courses foster the growth of individuals who are sensitive, aware, and accountable regarding social issues.

PROJECTS

STUDENT PROJECTS

The Effect of Zero Error Mobile Application on Nursing Students' Attitudes and Tendencies Towards Medical Errors

TUBITAK

The Effect of HPV Education Given to Women of Reproductive Age (Between 18-49 Years of Age) with Role-Play Technique on Their Knowledge Levels - Randomized Controlled Study

TUBITAK

PROJECT PARTNERSHIPS

Project partnerships are established to share resources, leverage expertise, reduce risks, and enhance project efficiency and speed. By pooling financial, technical, and human resources, partners can execute large-scale initiatives more effectively. Additionally, each partner contributes their unique expertise, leading to higher-quality outcomes. Partnerships also create valuable opportunities for entering new markets and expanding customer bases, as each participant brings their own network to the collaboration. As a result, all parties aim to achieve greater success while minimizing risks.

The following are project partners of Istinye University:

1.European Universities - Stockholm University

2. Humak University - Finland

3. Association of Sign Language Interpreters

4. Confederation of the Deaf
