CENTRES SUPPORTING EDUCATION

Istinye University's education centres support students' learning and academics' teaching practice. Alongside formal education, programmes provide opportunities for professional development, lifelong learning and sustainability education.

International Sustainability Application and Research Centre

ISU-IRCOS supports research and education that embed sustainability across the University. Work on environmental responsibility, social impact management and regional development combines interdisciplinary research with the sharing of knowledge among stakeholders.

Continuing Education Centre

ISUSEM offers education for professional and personal development. Certificate programmes and corporate training share university expertise with learners outside formal degree programmes.

Source: [3] Continuing Education Centre

Distance Education Application and Research Centre

Distance education supports access to course content and participation in learning without requiring students to be physically present in a classroom. Synchronous classes, video content and electronic materials provide flexibility in the time and place of learning.

Practical Professional Education at the Library

Practical classes were held at the Central Library with Istanbul 29 Mayıs University's Department of Information and Records Management on 17 December 2024. Collection development, information organisation, filing and research methods were explored through library services. A library tour and practical work with staff connected theoretical knowledge with professional experience.

PROJECT PARTNERSHIPS

Virtual Physics Laboratory Applications

Anadolu University, Istinye University, Eskişehir Provincial Directorate of National Education, AIJU Technological Institute in Spain and APEL Foundation Schools in Portugal are designing virtual laboratory experiments for high school physics. Their first transnational meeting, held at Istinye University in September 2024, addressed project management and the scope of the virtual experiments.

Collaborative Learning for Climate Policy

The British Academy-funded CLEMM project brings together Istinye University, the Institute of Development Studies, Marmara Municipalities Union and Şişli Municipality. The launch meeting in Istanbul on 15–16 May 2025 planned activities and examined climate policies and challenges facing municipalities. The programme also included the University's Climate Day Panel and municipal visits.
